Child Advocacy Center, St. Cloud

Child Advocacy Center: 2018 & 2021 Employee Campaign beneficiary

The Employee Campaign has been instrumental in our ability to increase the services we provide. Victims of child abuse and their families are receiving wonderful, compassionate care on what could be one of the toughest days of their lives. By providing early trauma-informed interventions, children are not only healing from the impacts of abuse but are thriving!

Thanks to employee and community giving, the Child Advocacy Center has increased the services we provide at our physical location and expanded our outreach and prevention efforts. This allows us to raise community awareness with the intention of preventing children from experiencing such devastating events.

We are beyond grateful for the support of the Employee Campaign and appreciate our colleagues for their willingness to assist with the work that we do through their gifts.

EMPLOYEE CAMPAIGN 2023 Partners in Caring

CentraCare – Monticello

Bounce Back Project: 2021 Employee Campaign beneficiary

Employee and community gifts helped to provide the Bounce Back Project's tools of resiliency and mindfulness to students of all ages.

Through an innovative school partnership, this project fosters happier, healthier students with social emotional learning and early intervention that encourage life-long mental health and well-being.

CentraCare – Monticello is proud to partner with local school districts to promote health through happiness!
